

# PORTLAND 4 THE PLANET

A project funded by

Dorset  
Community  
Foundation

Worried about the environment and want to know what you can do about it?

Portland 4 the Planet is a project especially for young people from Portland (aged 10-14 years old / school years 7, 8 and 9).

You will learn about the key environmental problems facing the world, such as climate change and plastic pollution, but with a focus on the solutions and how you can help. Get inspired and motivated to lead the way on local projects that will have a positive impact on a global level.

The project runs from January to July 2020 and will involve a mix of sessions (after school, during school breaks and on some weekends) to learn more about the issues, as well as practical activities to help you create your own campaign to support the planet. You will also get involved with positive volunteering actions like beach cleans and fundraising for your campaign.

If you would like to take part, fill out this form to tell us more about what you think and why you would be a great person to be involved. Forms need to be completed and returned by Tuesday 7th January. Post or email completed forms to the ICA office (see details below) or drop at the Atlantic Academy reception.
